

Polski Związek Piłki Siatkowej rekomenduje do stosowania

SYGNALIZATORY

PRODUKOWANE PRZEZ FIRME

DARPOL BYDGOSZCZ

W okresie zmian i rozwoju piłki siatkowej niezbędne było przygotowanie odpowiedniego sprzętu wykorzystywanego podczas zawodów.

Jednym z nich są sygnalizatory zmian zawodników i przerw dla odpoczynku. Firma Darpol wiele lat temu opracowała i wyprodukowała sprzęt, który był stosowany podczas wszystkich najważniejszych imprez organizowanych przez Polski Związek Piłki Siatkowej, takich jak Mistrzostwa Europy, Liga Światowa, (z turniejami finałowymi łącznie), zawody Ligi Mistrzów CEV oraz zawody ligowe wszystkich szczebli w Polsce. Każdorazowo sygnalizatory spełniały bardzo dobrze swoje zadanie.

W ostatnich latach, gdy mecze piłki siatkowej w Polsce, obserwowała głośna wielotysięczna publiczność, konieczne było ułatwienie pracy sędziów, zachowując jednocześnie odpowiednią scenografię meczów oraz spełniając wysokie wymagania transmitującej większość zawodów telewizji. Firma Darpol opracowała dodatkowy element umieszczony na słupku podtrzymującym siatkę, naprzeciwko sędziego II, który emituje pulsacyjne światło, równocześnie z uruchomieniem sygnalizatorów trenerskich lub sędziego sekretarza. Łączność między elementem układu sygnalizatorów odbywa się bezprzewodowo, dzięki czemu nie stwarza jakiegokolwiek niebezpieczeństwa dla uczestników gry.

Tego typu rozwiązanie znakomicie sprawdza się podczas najważniejszych imprez rozgrywanych w Polsce.

Jednocześnie firma Darpol dla rozgrywek w niższych ligach przygotowała układ sygnalizatorów (bez elementu na słupku), prostszy i tańszy dla ich użytkowników.

Nawiązując do powyższego Polski Związek Piłki Siatkowej z całą stanowczością rekomenduje do stosowania sygnalizatory produkowane przez firmę Darpol.

Buzzers

Produced by

DARPOL Bydgoszcz Company

Schweriner SC, Germany's Record Champion in Women's Volleyball, is using the Buzzer system by DARPOL Bydgoszcz Company since 2013. After this period of time we have to consider, that our team, the coaches, referees and opponent teams are enthused because of the easy handling, the reliability and the practical application.

First we used the Buzzers for last year's European Championship in Germany. Afterwards it was also in use for the Bundesliga, German Cup and CEV Champions League matches by the team of Schweriner SC. There were absolutely no problems with the product and it was a big help for all participants in our noisy Arena. Also other Bundesliga teams, like VT Aurubis Hamburg, used the Buzzers by DARPOL Bydgoszcz and told us how satisfied they are. So we can highly recommend this system because of the good experiences we made.

Volleyball Substitutions paddles

I am a Head Coach with Men's Volleyball program at Ryerson University in Toronto, Canada. Since I'm working with OVA and CIS Conference, and using your product – volleyball substitutions paddles for almost a year, I thought I would send you a letter how happy I am with your product and a choice we made. The primary objective of doing this is to support your company and assist when I can in sharing referrals and new opportunities to help you to build your businesses.

I feel that your product is simple, well designed, but has a very clean and contemporary and modern look. It was made with great material and workmanship is superior. It's easy to use and very durable. We have been using the sets for a year, and they looked like brand new. There are a few other products available here like yours, which have been used by other universities, but they are not even close to a quality of your product. It was money well spent, and I would like express to you how happy I am with it. If you run across someone who is interested in buying your substitutions paddles, I would be happy to recommend your product to anyone to see this as a good fit for them.

Please feel free to share these with anyone you want.

Thanks again for your wonderful product and I look forward to speaking with you soon.

Warm Regards,
